Nations' Cup Hungary

 **NATIONS' CUP
JUNIOR**

Behind every sporting achievement – including Olympic success – lie years of dedicated effort, perseverance, and invaluable experience gained through competition. Every journey begins somewhere: at an event where a young athlete first has the opportunity to measure themselves against the world's finest, to learn how to compete on the international stage, and to strengthen the belief that one day they, too, may earn their place among the very best.

Nations' Cup Hungary is precisely such an event. It is not only a prestigious international competition, but also a launching pad for young talents, contributing to their development while helping to shape the future of Hungarian sport. As such, it is of particular importance to the Hungarian Olympic Committee.

In recent years, cycling has undergone remarkable development in Hungary. Our country continues to demonstrate its ability to host international sporting events of the highest standard, while Hungarian cyclists are increasingly establishing themselves as respected competitors on the international stage. However, these achievements can only become lasting if we continue to place strong emphasis on the development of young athletes.

It is with great pleasure that I have accepted the role of Patron of the event. Nations' Cup Hungary serves as a source of inspiration for young cyclists, a meeting point for the international cycling community, and an excellent opportunity for the Hungarian public to witness tomorrow's champions up close.

I wish all competitors every success and an enjoyable race.

Zsolt Gyulay
President
Hungarian Olympic Committee

Dear Friends of Cycling, Dear Guests,

The Hungarian round of the Nations' Cup is all about the future of our sport. Over the coming days, some of the most talented young cyclists from nearly twenty countries will gather in Hungary to test their speed, tactical skills, and determination. It is no exaggeration to say that we may be watching the future Attila Valters, Tadej Pogačars, or Jonas Vingegaards compete up close.

These races are also of great importance for the development of young Hungarian riders, providing inspiration and new perspectives at a defining stage of their lives, as they stand on the threshold of adulthood.

The event also offers a wonderful opportunity for visitors to discover one of Hungary's most valuable natural and cultural regions. The Nyírség and Upper Tisza region are renowned for the hospitality of their local communities. Beyond cheering on the riders, visitors can enjoy cycling along the dikes of the River Tisza or exploring the area's uniquely beautiful medieval churches.

I wish all competitors safe and successful kilometres, and all spectators unforgettable experiences both at the roadside and in the saddle.

Yours sincerely,

Róbert Ésik
President

'Belt and Road' Nations' Cup Hungary — Road Cycling Junior
World Cup

Esteemed members of the Government of Ibrány, the event's Organizing Committee, and dear young cyclists,

On the auspicious occasion of the grand opening of the 'Belt and Road' Nations' Cup Hungary — Road Cycling Junior World Cup, I am deeply honored, on behalf of the Anshun Municipal People's Government in Guizhou Province, China, along with the 3 million residents of Anshun, to extend my heartfelt congratulations on the successful commencement of this event. I would like to convey my warmest greetings to the Government of Ibrány, the Organizing Committee, and all the dedicated staff for their meticulous efforts in preparing for this remarkable event. Wishing the very best to all the riders participating in this prestigious championship.

Although Anshun and Ibrány are thousands of miles apart, they are connected through the Belt and Road Initiative (BRI) and their sister city partnership. Last year, following the directives of Chinese President Xi Jinping, we fully implemented the BRI and jointly signed a letter of intent to establish sister city relations, alongside multiple cooperation agreements with Ibrány.

This marked the beginning of extensive collaboration between our two cities across various areas, including economy, trade, culture, tourism, education, and agriculture. Situated in the Danube basin, particularly along the Tisza, the picturesque city of Ibrány boasts abundant tourism resources, strategic geographic advantages, a robust industrial base, a thriving agricultural sector, and exceptional educational standards. These qualities make it a renowned tourist destination at the crossroads of Hungary, Slovakia, Ukraine, and Romania. Riders from around the world gather here to join the event. They embark on a journey through the breathtaking landscapes and historic towns of Hungary. Along the way, they can not only admire the awe-inspiring natural wonders but also immerse themselves in the country's rich history and cultural heritage, harvesting unforgettable memories.

Sports serves as a universal language that transcends borders, and youth represent the future of our world. This cycling event, titled the 'Belt and Road', brings together talented young athletes from various nations, fostering friendship and understanding through speed and passion. It perfectly embodies the Silk Road spirit of 'peace and cooperation, openness and inclusiveness, mutual learning and mutual benefit'. In recent years, Anshun has diligently embraced President Xi Jinping's significant remarks on sports, focusing on the integration of 'sports+tourism'. By capitalizing on its distinctive mountainous resources, the city has actively fostered diverse sports business forms, hosted a wide range of international events, and introduced high-quality products that combine sports with tourism. These initiatives have attracted numerous tourists, offering them an opportunity to experience the captivating blend of sports and local culture. Looking ahead, we aspire to collaborate with Ibrány on youth sports exchange initiatives. These could include athlete training exchanges and co-hosting mountain cycling events, transforming Anshun's breathtaking landscapes and Ibrány's pastoral charm into dynamic venues for youth engagement.

Here, I earnestly wish the 'Belt and Road' Nations' Cup Hungary — Road Cycling Junior World Cup a grand success. May the vibrant events in Ibrány bring the refreshing spirit of a midsummer breeze to every participant. May the friendship between our two regions flourish like a swiftly turning wheel, propelling us forward on the remarkable journey of the Belt and Road.

Finally, we warmly invite the citizens of Ibrány and athletes to visit Anshun, a charming city in China with a pleasant temperature of 21°C. There, you can marvel at breathtaking landscapes, experience unique culture, and embrace a life enriched with peace and prosperity.

Thank you!

Yin Hengbin
Mayor of Anshun

Dear Riders, Distinguished Guests, Ladies and Gentlemen,

It is a great honour and pleasure for the City of Tokaj to welcome the outstanding representatives of international cycling to our town.

For centuries, Tokaj has been a place of encounters. It is where the rivers Tisza and Bodrog meet, where rich heritage meets modern development, and where respect for tradition goes hand in hand with a vision for the future. We are proud that our town is not only the home of the world-famous Tokaj wine region, but also an increasingly important destination for sport, culture and tourism.

You are visiting Tokaj at a particularly exciting time in its history. The historic town centre is currently undergoing a large-scale renewal project of historic significance. Nearly 800 metres of the city centre are being transformed with new public spaces, renewed pavements, green areas and community facilities, all designed to create a townscape worthy of Tokaj's UNESCO World Heritage status and to provide an even more welcoming environment for visitors from around the world.

Cycling reflects many of the values that guide our community: perseverance, continuous improvement, determination and teamwork. Therefore, it is a special privilege for us to host talented young athletes from many nations as they compete on the roads of Tokaj and the surrounding region.

I wish all participants a successful, fair and safe competition, and I hope that your stay in Tokaj will offer unforgettable experiences, warm hospitality and a glimpse into the unique natural and cultural treasures of our town.

Welcome to Tokaj!

Dear Riders!

As the mayor of the city of Vásárosnamény, it is my great pleasure and honor to welcome you to one of the starting points of the Nation's Cup Hungary junior World Cup. I am proud that we can be the starting location for a wonderful competition, and we hope to prove that our county is an ideal place for both cycling tourists and competitors as well. Vásárosnamény is a young, emerging, sporty little town where dragon boat racing, football, table tennis, swimming, and cycling are part of the everyday life of school children. With over 300 kilometres of paved bike paths, rental bikes, cycling service points, biking maps, bike tour guides, cycling package deals, organized gastro-cycling tours with fixed dates, and an information office open all year round – all of these enable the comprehensive service of active tourists. It is no coincidence that Vásárosnamény has already won the title of 'Bicycle-Friendly Municipality' several times, as well as the title of the 'Bike Path of the Year' awarded by the 'Bereg Circuit' in 2024. We will do everything we can to be a successful starting point for the race again on this day, as this has become a tradition here in the Heart of Bereg, in Vásárosnamény! Vásárosnamény (START & FINISH TOWN)

Vásárosnamény, the Heart of Bereg

Vásárosnamény is a welcoming small town in the north-eastern part of Hungary, located at the confluence of the Öreg-Túr and Tisza rivers. Its true attraction lies in the waters. The Gergelyugorna beach, with its silky sandy shore reminiscent of the seaside, is a favoured docking site for water tourists. The Bereg Szíve Resort and Camping, located just a stone's throw from the shore, welcomes guests with its 6-bed wooden cabins, spacious dining hall, well-equipped sports facilities, and a huge, shady courtyard. Additionally, a 200-person camping site, a cycling tour centre, and a gazebo suitable for cooking and baking further enhance the comfort of guests. (www.beregszive.hu)

The Szilva Thermal and Wellness Bath, available year-round, features healing waters certified from a depth of 700 meters with a temperature of 45°C, which is suitable for treating various ailments.

From Vásárosnamény, we can start bicycle tours in a star-like manner to Szatmár and Bereg, and we don't even need to bring our bikes, as there is an opportunity to rent new, modern bicycles at the local Tourinform office. The completely flat terrain is easily traversable for families, young people, and the elderly alike. Most of the more than 300 km of

cycling paths in the Upper Tisza region meander along paved embankment crowns, and our journey is enriched by sights such as the Túristvándi watermill, the Reformed churches in Tákos and Csaroda, but the region's biggest attraction is the untouched Bereg landscape, which offers calm and nature-close moments to the visitors.

Ibrány, with a population of 7,000, is the 10th most populous settlement in Szabolcs-Szatmár-Bereg county, and the centre of the Ibrány district.

The Municipality of the town Ibrány is taking an active part in the establishment of the conditions of the competition- and mass sporting and its continuous development. The Municipality is supporting several sport clubs, sport associations and it is a great pleasure to us, that besides this more and more civil organisations, business groups and institutions get involved into the organisation, managing of the town mass sport programmes. A large number of the inhabitants of Ibrány have a continuously increasing demand for physical exercises, as we can see more and more young people cycling, running, rowing or even playing basketball in open air.

Thanks to the management of MERSE and NYKSE during the last years it was possible to organise several cycling competitions of high standard in Ibrány and in its region. Our roads are of good quality, our town is well ordered, inhabitants are open and receptive in direction of all new possibilities which provide a possibility to introduce ourselves, make public acquainted with our values, our natural beauties.

Over the past few years, we have hosted a number of national and international cycling events, which have helped to spread the reputation and hospitality of our town. The possibility of organising the Junior World Cup is, of course, a new challenge and a great honour for us.

In that way I should like to say thank you to all those who provide a possibility with their work, and expertise or financial support, to make again popular the cycling sport in our region.

These competitions are a great opportunity to show the kindness and hospitality of the people who live here. I hope we will arouse your interest in our city and that you will soon be one of our returning guests.

I am thanking for the confidence/trust of the Hungarian Cycling Association, we endeavour this year as well to deserve it.

AZ ÚJ ELROQ. ÁLLATI GYORSAN TÖLT.

Az értékek nem egyes gépjárművekre vonatkoznak, nem részei az ajánlatnak, hanem a különböző járműtípusok összehasonlítására szolgálnak. Egy gépjármű üzemanyag-fogyasztását és a CO₂-kibocsátását a vezetői szokások és egyéb, nem technikai jellegű tényezők (pl. környezeti feltételek) is befolyásolják. Különösen az extrafelszereltségek és a tartozékok (pl. szélesebb gumibroncsok, klímaberendezés, tetőcsomagtartó) megváltoztatják a gépjármű releváns jellemzőit, mint amilyen például a tömeg, a gördülési ellenállás valamint az aerodinamika, és ezáltal eltérést eredményeznek a konfigurált modell adataiban. Az üzemanyag-fogyasztásra és a CO₂-kibocsátásra vonatkozó adatok a kiválasztott gumibroncs formától és az optimális extrafelszereltségektől függő tartomány adatai mellett érvényesek. Az új személygépkocsi fajlagos üzemanyag-fogyasztási és széndioxid-kibocsátási adatai megtalálhatóak az üzemanyag-gazdaságossági ismertetőben, amely ingyenesen hozzáférhető minden értékesítési helyen és a fogyasztóvédelmi hatóságnál. A kép csak illusztráció.
